

A map of almostright books

Year 5 student investigation

What makes a book similar enough to recommend?

My prediction

I think this will happen because

Two fair tests

What I changed	What I kept	What happened

My new case

Define two book features and a reader need. Find a recommendation that is close but unsuitable.

Explain and question

My evidence supports this claim. A case that could change my mind is

Use fictional data. Download your project before changing devices. On shared devices, turn remembering off and clear your work when finished.
