

When the scoreboard is wrong

Year 5 student investigation

Can a better score make the real goal worse?

My prediction

I think this will happen because

Two fair tests

What I changed	What I kept	What happened

My new case

Design two scoring rules for a fictional reading club. Include one important outcome the score can miss.

Explain and question

My evidence supports this claim. A case that could change my mind is

Use fictional data. Download your project before changing devices. On shared devices, turn remembering off and clear your work when finished.
