

The expeditions shrinking memory

Year 6 student investigation

What must survive when a briefing becomes shorter?

My prediction

I think this will happen because

Two fair tests

What I changed	What I kept	What happened

My new case

Write your own six-line briefing. Preserve a condition under a word budget and test the resulting answer.

Explain and question

My evidence supports this claim. A case that could change my mind is

Use fictional data. Download your project before changing devices. On shared devices, turn remembering off and clear your work when finished.
