

A sentence at the crossroads

Year 6 student investigation

Which next word is likely, and what makes it supported?

My prediction

I think this will happen because

Two fair tests

What I changed	What I kept	What happened

My new case

Write two contexts that share a final word but support different continuations. Compare them with the trained-model bonus lab.

Explain and question

My evidence supports this claim. A case that could change my mind is

Use fictional data. Download your project before changing devices. On shared devices, turn remembering off and clear your work when finished.
